

Bob Beauprez

An Experienced Leader with Colorado Values

A third-generation Coloradan, Bob Beauprez grew up on a dairy farm where he learned the value of hard work.

After working on the family farm, Bob turned his sights to community banking. Bob became the president of a small bank, which he helped expand to 14 locations.

In 2003, Bob started a new job as a United States representative for Colorado. Bob Beauprez has worked hard to improve Colorado highways and roads — increasing transportation programs by 46 percent. And Bob stood up for families and small businesses by opposing the marriage penalty and the death tax.
